

# Security Survey Program

In an effort to improve the safety and security of Avon's residences and businesses, the Avon Police Department has implemented a Home Security Survey and Business Security Survey program. This program provides residents and businesses within the City the ability to contact the Avon Police and arrange for the scheduling of an Avon police officer to come and conduct an analysis of your current security measures and address what is being done correctly by you, your family or employees as well as improvements that can be made.

## AVON POLICE DEPARTMENT

## Residential & Business Security Surveys

A FREE service provided by the Avon Police Department to residents and businesses located within the City of Avon

# Security Surveys

A security survey is a confidential, in-depth written report that evaluates the existing security and procedures of a premise. A private home, for example, may only entail locks, doors, windows and an alarm system. A corporate facility may require addressing a much wider range of needs, such as closed-circuit television, electronic access control, fencing, security lighting, mail handling and visitor screening procedures.

The survey will address security vulnerabilities and outline corrective measures. The Department provides this service free of charge. The Avon Police Department provides security surveys to residents and businesses within the City. The surveys are conducted by Officers of the Avon Police Department, who have received specialized training in crime prevention/ residential security.

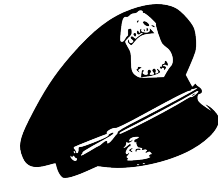

## Process

The survey will usually take approximately 30 minutes to 1 hour depending on the size of the property. After the survey is complete, you will receive a brief report with the results of the survey along with any suggestions to improve the security of the property. Often times the suggestions provided in the report are no cost or low-cost items.

## Disclaimer

You may request the Department to visit your property and make recommendations on changes that may improve the security of the property. We will be using a form which is intended to point out to you some areas where improvements may be desirable. The recommendations are measures designed to make your property more secure from unauthorized entry. While there is no guarantee that you will not become the victim of a crime, by adopting these recommendations

you may reduce your risk. The recommendations have been made in good faith and there is no guarantee, implied or stated, that you will not become the victim of a crime or theft. This is a free service offered by the Avon Police Department. You are free to use any of the ideas we suggest, but the City and its police officers or other employees are not liable should you become the victim of a crime after the survey is conducted, regardless of what you may have chosen to implement.
