Tim Loeser, Superintendent of Streets

As per our conversation, I propose to construct your 260 lineal feet retaining wall on Jaycox Road as I did on the last stretch in 2016 for the price of \$122,740.00.

I will install the retaining wall at the same height as before, back fill with hard material and topped off with the quarry mix as I did previously to promote vegetation growth.

Call me with any questions you may have.
