July 8, 2019

Dear Resident/Business:

The City of Avon is making final preparations to begin a widening of Nagel Road between Detroit Road and Middleton Road. The project will consist of widening Nagel Road from 2 lanes to 3 lanes and pavement resurfacing between Detroit Road & Middleton Road. This project will also include drive apron reconstructions and storm sewer upgrades through the limits of the project. The contractor selected to perform the work is KMU Trucking & Excavating, Inc.

Construction is expected to begin in the second half of July with Final Project Completion by December 1, 2019.

During construction, existing two-way traffic patterns will only be maintained between Detroit Road and the Drug Mart Driveway on Nagel Road. North of the Drug Mart Driveway, traffic will only be maintained one-way in the southbound direction and northbound travel will be closed. A posted detour route will be provided for Nagel Road northbound traffic. Flashing Message Boards, Detour Signs, other Maintenance of Traffic Devices, and occasionally Police Officers with Patrol Cars will be in place during construction to inform and safely guide vehicular traffic through the project construction zone.

Driveway access along Nagel Road will be maintained but may be limited at times. Signs and barricades will be provided around all work areas.

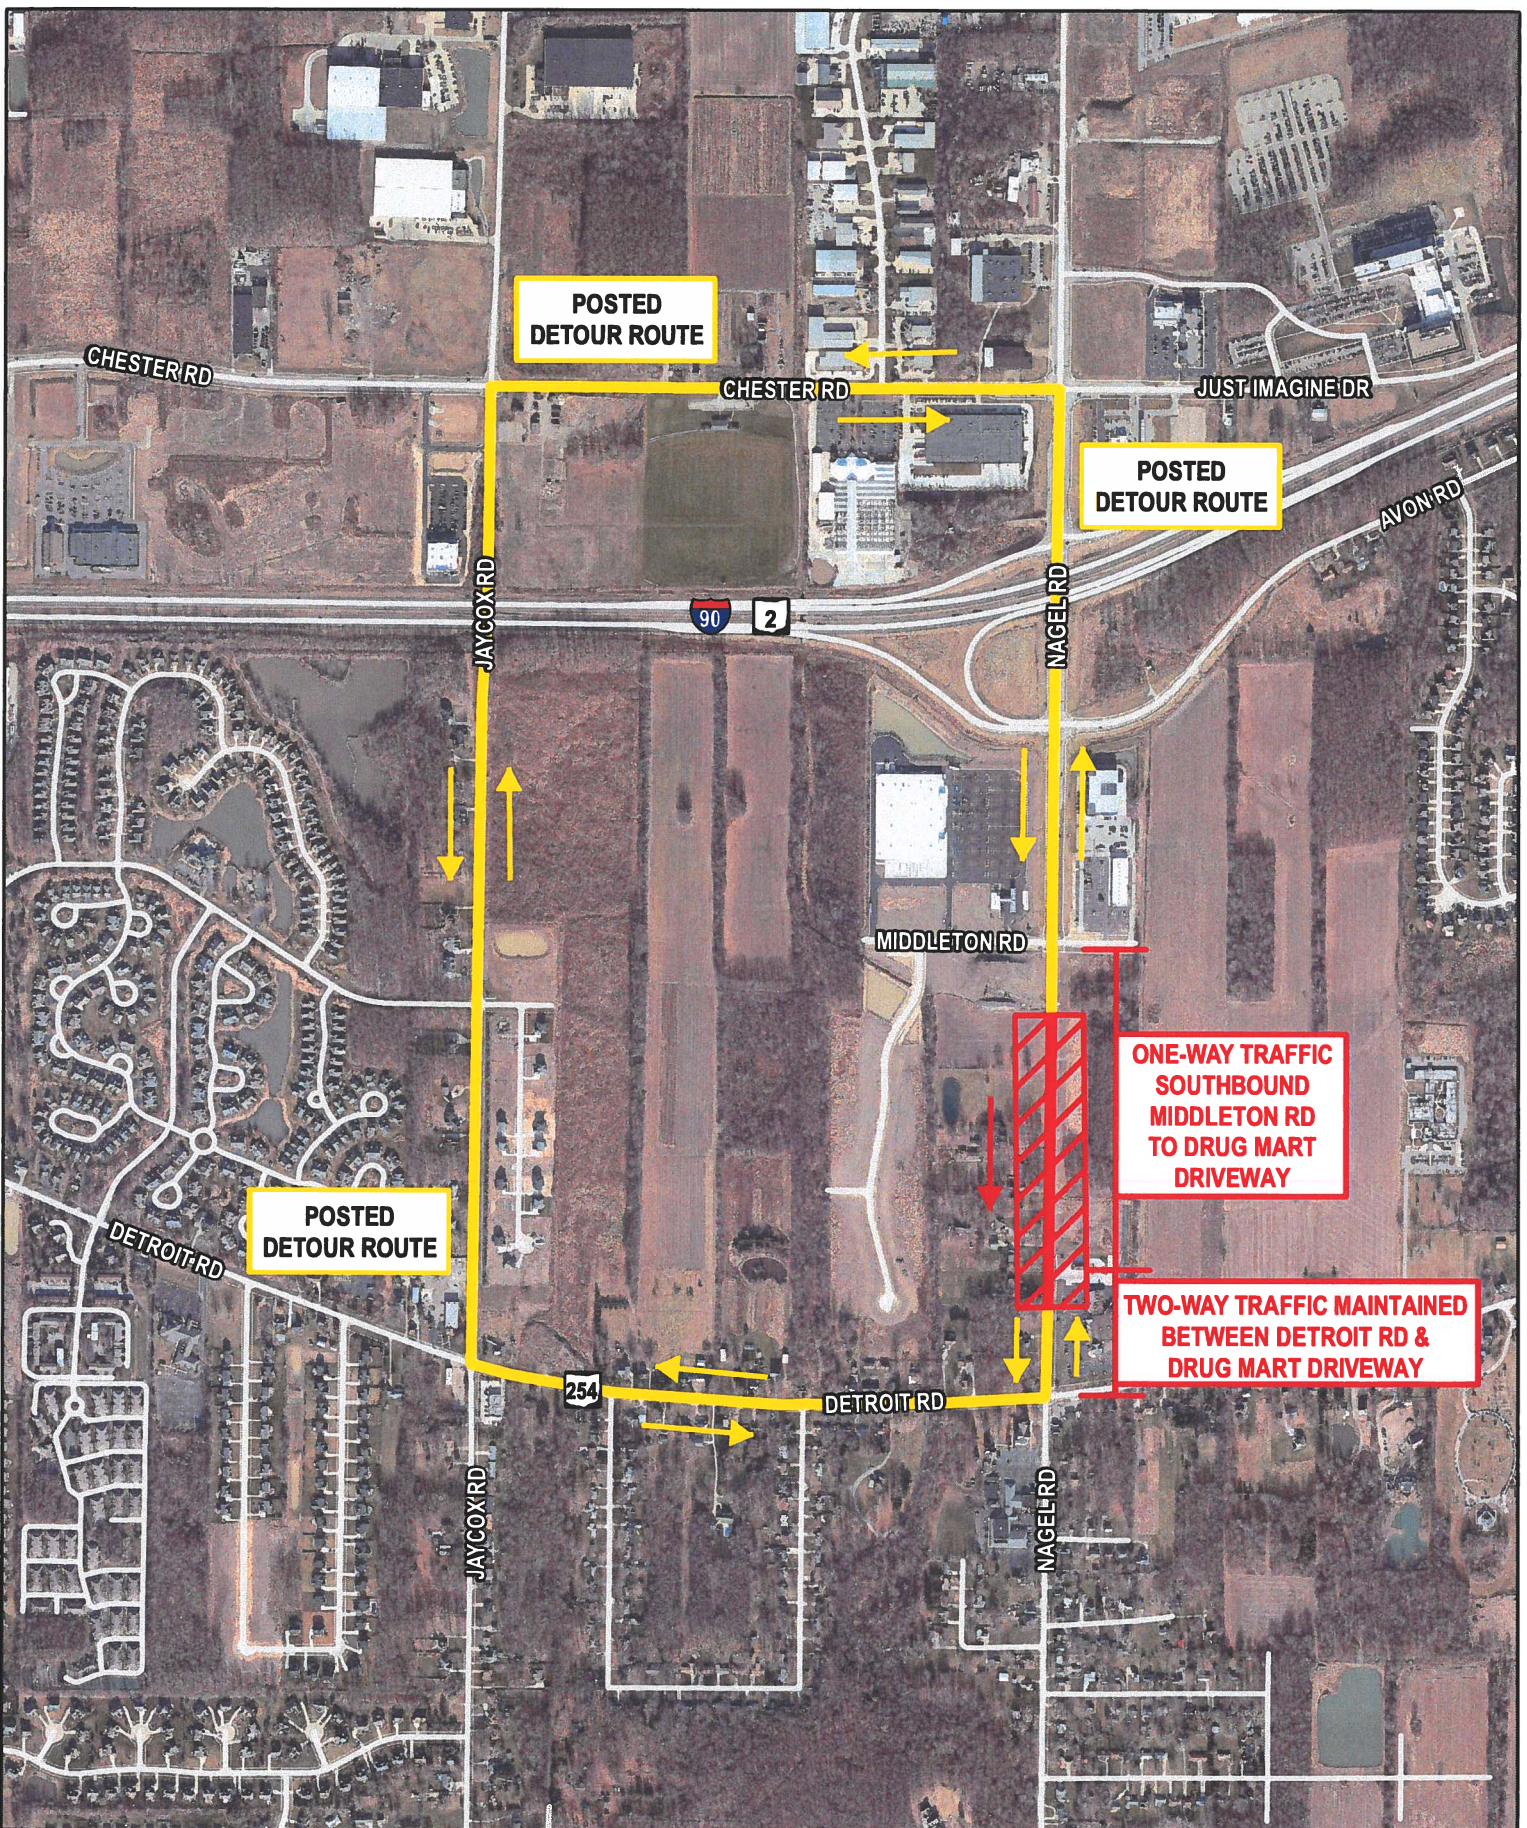

The safety of the general public and the construction workers is of the utmost importance during the construction of the project.

Your patience and cooperation through the construction process is greatly appreciated.

Should you have any questions with regards to this project, please feel free to contact Scott Wood from Chagrin Valley Engineering at 440-317-7050.

Sincerely,
Chagrin Valley Engineering, Ltd.

Ryan E. Cummins, P.E., CPESC
Avon Consulting City Engineer
