COVID-19 Update – City of Avon

The Lorain County Health Department has informed me that the city of Avon had eight positive results for COVID-19 last week. Of those eight people, two were in the senior citizen age range, one was a seven year old child and the remaining were in the age range of 17-35.

This isn't to scare anyone, but the virus is still around, it is still in Avon. We must continue to do our best to social distance and protect each other. The responsibility is on each and every one of us.

Numbers seem to be rising in several parts of the United States. I will continue to keep you informed if/when things change in our area.

UPDATE 6/26/2020:

- To date, the city of Avon has had a total of 49 COVID-19 cases
- There has been no increase in hospitalizations in Avon

From an HOA in a Surrounding County:

community, the board was notified this evening that there were multiple confirmed cases of Covid 19 at the pool. The board met tonight to discuss a plan to ensure safety of all community members. At this time we are announcing that the pool will be closed for at least 14 days. We will re-evaluate the current situation at the next meeting. Please watch this page and the website for updates moving forward. As of now the 4th I'd July bike parade and race will go on but the pool will not be open.

Our prayers go out to anyone effected by Covid-19. We ask that you continue to practice the guidelines and safe practices especially with our upcoming events.
